SUMMARY

Passionate about building scalable and maintainable systems, I thrive on solving technical challenges and optimizing system performance. With experience across front-end, back-end, and DevOps, I bridge the gap between business requirements and technical implementation. Always eager to explore new technologies, I am committed to delivering high-quality, efficient solutions.

SKILLS

- **Programming Languages:** Javascript, Typescript, Python, Java, Prolog, Haskell
- **Front-End :** HTML, CSS, Tailwind CSS, React, Next.js
- **Back-End:** Node.js, Express.js, Django
- **API Design:** RESTful APIs, tRPC
- **Database:** MySQL, PostgreSQL, MongoDB, Firebase, AirTable
- **Cloud Services:** AWS (EC2, Lambda, API Gateway, CloudWatch, CloudFormation), Docker
- **Tools:** Git, Npm, Postman, Jest

EXPERIENCE

CISO Success

Full Stack Developer, Contractor

Nov 2024 – Present

Melbourne, Australia

Technology: TypeScript, React, Next.js, Python, Fast API, tRPC, Prisma, AWS.

- Implemented CI/CD pipelines using GitHub Actions, reducing manual effort and improving scalability of frontend and backend services hosted on AWS EC2 using Docker.
- Implemented user authentication workflow using NextAuth.js, JWT, and middleware, enabling role-based access control and safeguarding sensitive user data.
- Designed type-safe API integrations using TypeScript, facilitating seamless communication between systems and reducing errors by 20%.

Nuvc.AI

Frontend Developer, Contractor

Oct 2024 – Present

Melbourne, Australia

Technology: TypeScript, React, Next.js, Tailwind CSS, tRPC, Prisma.

- Partnered with designers and back-end engineers to enhance mobile responsiveness and user interfaces, driving a 20% increase in user satisfaction.
- Refactored local reducer logic for swipe-based card matching, improving state management for seamless user interactions.
- Played a key role in Agile sprint planning and progress tracking using Trello and Jira, ensuring timely delivery of critical features.

Austin Hospital

Frontend Developer

Mar 2024 – Jun 2024

Melbourne, Australia

Technology: Typescript, React, Next.js, Redux, RESTful API, Project Management.

- Led a team of six and collaborated with clients and stakeholders to gather requirements, present progress, and adjust strategies, achieving high satisfaction.
- Streamlined front-end API integrations and implemented key features like script history tables and notifications, enhancing user experience.
- Developed secure user authentication with Redux and JWT, enhancing system access control and reducing unauthorized access risks.

Technology: TypeScript, OpenAI API, RESTful API, AirTable, Jest, AWS, Agile Methodology

- Developed backend OpenAI function calls integrated with Airtable using TypeScript, enhancing reminder functionality and increasing user task completion rates.
- Automated backend scheduling features using OpenAI APIs, increasing task completion rates and minimizing manual interventions.
- Coordinated with product and design teams to refine navigation within a React Native app, enhancing user interaction efficiency by 15%.
- Actively participated in Scrum ceremonies, ensuring alignment with team objectives and on-time project delivery.

PROJECTS

Access Mate Australia | [click to view](#) Aug 2024 - Feb 2025

Technology: Next.js, Tailwind CSS, Vercel

- Developed a fully responsive static website for AMA using Next.js and Tailwind CSS.
- Designed a modern, visually appealing UI with a strong focus on user experience and accessibility.
- Optimized performance and SEO, ensuring fast load times and better search engine visibility.

Techscrum | [click to view](#) Feb 2025 - present

Technology: Express.js, Node.js, React, Styled Components, MongoDB

- Researched and optimized MongoDB high-concurrency behavior, improving query performance and system scalability.
- Designed and implemented backend APIs for ticketing and project management using Node.js and MongoDB.
- Developed a dynamic frontend dashboard for ticket tracking, featuring real-time updates and user-friendly workflows.

EDUCATION

The University of Melbourne Jul 2022 – Jul 2024
Master of Information Technology GPA: 78/100

- Awarded Melbourne Graduate Scholarship at 2022

RMIT University Jul 2020 – Jun 2022
Bachelor of Engineering (Mechanical Engineering) (Honours) GPA: 85/100

- First Class Honours 2022 from RMIT University
- Awarded School of Engineering Undergraduate Tuition Fee Scholarship at 2020

Shandong University Sep 2018 – Jun 2022
Bachelor of Mechanical Design, Manufacturing and Automation GPA: 84.7/100
